Join us for a technical seminar

An Introduction to Quantitative Proteomics with Real-World Applications

Performing accurate protein quantitation using mass spectrometry allows scientists to track the changes in protein expression in a wide variety of samples. These technologies can provide a deeper insight into the molecular mechanisms of biological processes and disease states. In this seminar, we will discuss several quantitative proteomics strategies, how to overcome the associated challenges, and real-world applications that highlight the applicability of these technologies.

Thursday, February 2, 2017

Institution:	MIT
Room:	76-185B
Address:	Koch Institute 500 Main Street, Cambridge MA 02142
Time:	12:00 p.m.–1:00 p.m.

Refreshments will be served.
